

THE WORLD IS FACING CHALLENGING AND UNCERTAIN TIMES

ANCHOR MAKES SELECTING A QUALITY YEAST STRAIN EFFORTLESS

Anchor has been supplying the wine industry with innovative, unique and quality wine yeast for more than half a century. In these challenging times, you can be certain of reliable, dependable and qualitative results with the Anchor yeast portfolio.

How do we ensure unique and interesting wines?

LEGACY

The world's first hybrid wine yeast strain, VIN 13.

Intensely aromatic white, rosé and red wines.

These versatile hybrid strains are very robust and suited for all fermentation conditions.

RANGE

For white wines

VIN 13, VIN 7, VIN 2000,
NT 116 & N 96

For red wines

NT 50, NT 112, NT 202,
NT 116 & WE 372

EXOTICS

The world's first interspecies yeast hybrids for wine production.

Complex white, rosé and red wines that are supported by intense palate weight and mouthfeel.

Steady yeast fermentation rates enhance complexity, whilst still ensuring a complete fermentation.

RANGE

For white, rosé & red wines

Exotics Mosaic
Exotics Novello

ALCHEMY

The world's first scientifically formulated commercial wine yeast blends.

Aromatic and complex white, rosé and red wines.

The metabolic interaction between the strains in the blends result in freshness, fruit characters and complexity.

RANGE

For white wines

Alchemy I & II

For rosé & red wines

Alchemy III & IV
